NEW ORLEANS AND GREAT NORTHERN RAILROAD. The report of Mr. Ross, President of this company, states that the Road will be in running order to the Mississippi line in a few months. That the present means, with the additional subscriptions of stock safely to be counted on, will suffice to grade and prepare the road for the reception of the iron to the Tennessee river, after which Mr. Rosn anticipates no difficulty in procuring iron by the sale of

THE TURK

Union Course.-A match race for a purse of \$8500 came off over this course yesterday between Sally Waters and Lexington-the former being backed for \$5,000 against the latter for \$3500. The track was very heavy and it was impossible that good time could be made on it. A very large concourse of spectators attended, attracted thither by the large amount at stake and by the fame of the entries, both of which had been winners in former fields.

Sally Waters was the favorite at two to one, and some large betting took place at these figures. Her friends were so confident indeed, and offered odds so freely, that the backers of the horse were shy of accepting. In tossing for positions Lexington won the inside track.

First Heat.-The two got off with a good start, and ran neck and neck for a few strides, when Lexsagton went ahead by a length, holding his position through the first half mile, when Stilly Waters made a rally and lapped him. But the horse shook her off and went away, coming through the first mile several lenghts in advance. In going around the second time the mare made several attempts to pass, each time with the same result. The horse had the heels of her and came to the outcome a half dozen lengths in the advance. Time 6:26. After this heat the betting ceased altogether, although five to one was freely offered on the horse.

It was clear to every one that the mare was dead Second Heat-Lexington took the lead and held it to the half mile post, when Sally Waters made an ineffectual rally and fell back. From this point out the gap became wider at every stride, and Lexington came home under a pull, Sully Waters being distanced. Time, 6:244.

SILVER TAIL AND FRANK PIERCE.—These two cracks come together to-morrow over the Metairie, at mile heats three best in five to harness. Both nags are well known to fame, and an interesting spin may be expected. Silver Tail has rather the call - N O Crescent

Thomas G. Atkins, a well known and somewhat eccentric citizen of Boston, died there on Saturday last. The Bee says, for half a century past he kept a dry goods store on Washington street, near School, directly opposite the Old South, In his stock may be found goods which he bought the first year of his trade. He never would sell an article for less than was paid for it, which was generally a pretty high rate. Mr. Atkins was a \$200,000 man-we don't know but in late years his property has rolled up to \$300,000. Though rich as this made him, he was a miserly man, save in one singular exception. His passion and delight was to be in the law. He never was out of it. If people wouldn't "pick a fuss" with him, he would with them. We suppose he has spent \$50,000 in

FUGITIVE SLAVE BROUGHT BACK .- Some seven or eight months ago, while the steamer Cape May was lying at the Cincinnati landing for the purpose of taking in some freight, six or seven slaves belonging to Mr. Hoghes, of Nashville, Tenn., made their escape and were not re-captured. On Wednesday last, as the J. P. Tweed was going from this place to Cincinnati, Mr. Ferrell, clerk of the boat, went down upon the boiler deck to collect fare from deck pasngers. While doing so he came in contact with a darkey, who said he was free, and gave his name as Peter Shorter. By questioning and cross-questioning him in regard to his free papers, the clerk's suspicions was aroused, and fearing suit for damager against the boat, he secured him and locked low up. Peter then admitted that he was one that made his escape from the Cape May, at the time to which we allude, and that he belonged to Captain Hughes, of Nashville. When the Tweed arrived at Cincinnati the fugitive was taken to Covington, Ky, and lodged in jail, there to await the arrival of

POWELL'S PAINTING AND PUTNAM'S MAGAZINE .-The last number of Putnam's Magazine contains a savage onslaught, almost baharic in its taste, on the great national painting of Powell, which is now on exhibition at the Academy of Design, in Broadway. Putnam's Magazine is said to be curiously managed. He has a number of literateurs-young men about own-furnishing him with his original articles-When one of them calls on him, asking, "What sort of an article shall I give you about the Cabinet?" Mr. Putnam immediately replies, "Oh, pitch into them." Another comes up and says, "Mr. Putnam, how shall I treat Mr. Powell's celebrated painting?" "My dear fellow," he replies, "pitch into it-pitch into it." Another approaches with. 'How shall I review the new novel of Jerry Snooks?" "Oh! Jerry Snooks: pitch into it-pitch into it." The truth is that Potnam has started to make a magazine on the principle of pitching into everything; and we should not be surprised to see some one pitch into Putnam's Magazine pretty se

verely one of these pays.—New York Herald. A COW FOR THREE THOUSAND DOLLARS.—Col. Thorne, of Washington Hollow, Dutchess county, New York, lately imported a valuable Durham bull and other stock, by the steamer Hermann, which were selected, without regard to cost, of the best to be found in Eugland. The bull is stated to have cort \$5,000. By the Washington, on her last trip, he received a cow, of the same strain as the bull for which, we are told, he paid \$3,000, besides the expense of her passage. This is probably the highest priced cow ever imported. She was accompanied by a two-months old calf, which cost \$750also, a lot of South down sheep of superior quality. Morriss, of Mt. Corrox.-The cotton market was rather inactive yesterday. Sales of the following lots at annexed prices: 16 bales at 836; 5 at \$8 65; 16 at 8a836; and 13 at 856.

Our semi-weekly report closed upon a moderate demand, which was mainly directed to the Middling and Good Middling descriptions, and as these qualities were not in very full supply, and were held at full rates, the business reached a moderate extent. On Wednesday morning the Atlantic's advices, from Liverpool to the 15th ultimo, were before the public, reporting a heavy Cotton market at Liverpool, the sales of the three days barely reaching 1500 bales, with prices in favor of huners, though the quotations given are prices in favor of buyers, though the quotations given are the same as those brought by the previous steamer—viz; 6% of for Middling ditto. Our own market presented a very dull appearance, and the sales barely reached 1600 bales, the advantage in prices being on the side of buyers. On Thursday the market was still heavy, but rather more buyers came forward than on the day previous, and prices being still easier some 4200 bales

Yesterday the enquiry, though not general, seemed to be somewhat more active, and the business reached a fair ex-tent, the sales being about 7000 bales; which would make a total for the past three days of 12,800 bales and for the week of 22,500 bales, taken for England, France, Spain, the Con-tinent and the North Prices have yielded fully a 3/4 cent rom our last quotations, and we reduce our figures accord-

Ingly.

The receipts at this port since 1st September (exclusive of the arrivals from Mobile, Florida and Texas,) are 809,526 bales, against 620,529 bales to same date last year; and the bates, against 629,529 bates to same date last year; and the decrease in the receipts at all the ports, up to the latest dates as compared with last year is 413,396 bales. In the exports from the United States to foreign countries, as compared with the same dates last year, there is a decrease of 90,658 bales to Great Britain, 21,061 to France, and 14,847

At the Veraudah Hotel, kept by Mrs. En NONDSON and her son-in-law Mr. Bachus, there is a gentleman from Scott County, Ky., who, for twelve months, suffered greatly from a chronic disease of the stomach and bowels, which could not be removed by the most approved practice, respected and continued as it was for the Dector's sake. He had paid his Doctor's Bill, without any calculation of making another, thiking it was of no use; and no one expressed any hope of his recovery except a stranger, who appened to pass that way, and advised him to a different course of treatment, which has this recommendation, that in five weeks time it has made him feel like engaging in business. But why does he come out of this spell of sickness a strong advocate of Dr. Arnold's Union Pills? Because, they are the principal remedy used in the treatment of his case; and to their efficacy he is principally indebted for his recovery. Should not such cases be published? If some persons are opposed to their publication, can

anybody tell us the reason why? The gentleman above referred to is ELIAS STONE, a brother of Joun Stone, the clerk at the VERANDAH.
